202 DS AIR

Air operated industrial vacuum cleaner with high filtration level

The 202DS AIR is an extremely powerful and compact industrial vacuum, operated by a powerful Venturi unit.

The high filtrating surface allows to keep always the best performances and suction of large quantities of material, even when electrical supply is not available. In this new version we made it even more innovative with:

- DUSTOP filter cleaning system using pressure differential
- New conical filter with large filtration surface of 3m²
- More efficiency in the cleaning process
- Easier filter replacement
- Best filtration of its segment
- Detachable container with possibility of direct bagging system
- Maintenance free Venturi suction unit
- Integrated filter cleaning system
- Light and portable

Power	V	Aria compressa
Pression	bar	6
Compressed air supply	l/min	1500
Internal diameter compressed air supply	mm	10
Depression	mmH ₂ O	4180
Depression (continuous service)	mmH ₂ O	4180
Airflow max	m ³ /h	150
Surface	cm ²	30000
Filtration class (primary filter)	(IEC 60335-2-69)	M
Filter surface (HEPA filter)	cm ²	19000
Filtration class (HEPA filter)	(EN1822)	H14
Air load on primary filter	m ³ /m ² /h	50.00
Capacity	lt	20
Suction inlet diameter	mm	50
Sound level	dB(A)	74
Dimensions	cm	52 x 48 x 100 h.
