DBF/V 20

Fixed suction unit for direct extraction on production machinery

This vacuum cleaner model of the DirectX range was specifically designed for application such as the constant recover of processing waste from almost any kind of machinery: from packaging industry, to food industry and paper processing.

Thanks to its vertical structure and to its modularity, the DBFV 20 can support machinery on production lines while creating not even the smallest obstruction. Great filter surface and integrated filter cleaning system. Motor suitable for continuous duty application, even 24/7. Low level noise. Maintenance free motor. Highly modular and suitable for integration on OEM machines and production lines.

Power	V	400 3~
Frequency	Hz	50
Power	kW	1,8
Depression	mmH2O	2300
Depression (continuous service)	mmH2O	1800
Airflow max	m3/h	250
Surface	cm2	8000
Filtration class (primary filter)	(IEC 60335-2-69)	L
Capacity	lt	25
Suction inlet diameter	mm	50
Sound level	dB(A)	68
IP protection / Ins.Cl.	IP	55
Dimensions	cm	50 X 41 X 92 h.
